

# 'Selektor' Random Search Selector

**A 2 T****Access-to-Time**

## System information:

- 'Selektor' is designed as a 'stand-alone' self-contained portable unit that is ready to go 'out of the box'. Simply set the desired percentage 'search' ratio, plug in the supplied mains adaptor, or fit batteries if preferred, and it's ready for use.
- The unit can also be permanently installed by fixing to a wall or work surface.
- The Selektor is ideal for use in a "stop and search" theft prevention policy to eliminate losses from warehouses, shops or factories.

## How it works:

- Everyone passing through the control point pushes the button
- A red light and high tone indicate that you have been selected
- A green light and a low tone indicates that you have not been selected on this occasion
- If you know you could be stopped, you won't take the risk!

## System features:

- Mains or battery (3 x 'AA') operation
- Clear indication of SEARCH and PASS with daylight visible lights and audible tones
- Portable or fixed installation.
- Desk mount, wall mount or hand held
- Large 2-inch push button
- Search percentage ratio adjustable by internal switches
- Search settings from 0 to 100% in 0.5% steps
- Random selection is guaranteed to be totally unpredictable

## Technical:

- The Selektor is supplied complete with:
  - UK power adapter
  - Self adhesive vinyl sign
  - Wall fixings
  - Instructions.
  - 160 x 80 x 40mm
